Audit Findings

Audit Narrative

The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor’s process for the site review.

PREA America LLC PREA Auditor Will Weir was selected June 15, 2017, to conduct the PREA Audit of Bethany Christian Services. The audit team coordinated with Michigan DHHS PREA Coordinator Patrick Sussex and the audit was scheduled for February 22, 2018. Notices went up at the facility by December 31, 2017, announcing the audit and providing the auditor’s contact information and statement of confidentiality. The Pre-Audit Questionnaire arrived January 29, 2018, on a flash drive that also contained relevant supporting documents and policy.

The on-site portion of the audit was held, as scheduled and announced, on February 22. The audit team, consisting of PREA Auditor Will Weir and Project Manager Tom Kovach, of PREA America LLC, arrived at 8 a.m. and was given a list of all residents and staff. The audit team met initially with DHHS PREA Coordinator Patrick Sussex, Bethany Christian Services' Residential Clinical Supervisor and PREA Coordinator Mark Barnhouse, and was given a tour of the entire facility with special emphasis on the locations of cameras, residents’ living quarters, staff and monitor locations, and posted PREA information. Interviews commenced right away. 10 of the 20 youth in residence were randomly selected and interviewed. 7 line staff were randomly selected and interviewed. Also, 4 specialized staff were interviewed as well as the PREA Coordinator, PREA Compliance Manager, and Director’s Designee.

At the conclusion of the on-site audit an exit conference was held. The audit team expressed appreciation to Mr. Barnhouse and his staff for their efficient and effective use of the Pre-Audit process. Verifying materials were provided 3 weeks in advance of the on-site audit, with additional documents requested by the auditor provided the week before the audit, with very little paperwork left to be reviewed during the on-site audit, giving the audit team quality time to focus on the interviews and facility tour the day of the on-site audit. Many strengths were identified and discussed during the exit conference. Documentation reviews and interviews indicate strong compliance regarding supervision, searches, reporting, privacy and PREA education and training. The facility performs high quality screenings for risk of abusiveness and victimization, and does these quickly upon a new resident’s arrival. Also, they conduct weekly reassessments and treatment meetings facilitating the appropriate sharing of information used to keep residents safe.

Documents reviewed include: Pre-Audit Questionnaire; Youth Searches Policy; Translators Resource List; Staffing Plan/Review; Staff Training Curriculum; Contractor-Volunteer Training; Documentation of Completion of Training; Prevention of Resident Sexual Assault/Rape Policy (PORSA); Organizational Charts; DHHS Contract Language for all Contracted Juvenile Justice Residential Providers; Bethany PREA Policy; Documented PORSA Observations; Bethany Christian Services Residential Treatment Program Policies & Procedures; questions for employees and potential employees regrading whether they have engaged in sexual abuse, or have been administratively adjudicated for such, by a previous employer; MDHHS Juvenile Justice Residential Policy #100; Memorandum of Understanding between BCS Residential
Treatment Program and Bethany Counseling Services related to the implementation of PREA; Bethany Parent / Family Handbook; Youth Orientation Packet and Handbook; Certificate of Completion recognizing that Mark Barnhouse has completed the online course, PREA: Investigating Sexual Abuse in a Confinement Setting, presented by the National Institute of Corrections; Protective + Risk Observations for Eliminating Sexual Offense Recidivism (PROFESOR) program; Initial Resident Intake Assessments (examples); website; Bethany Christian Services PREA Coordinated Response Plan; Annual Report; MDHHS Umbrella Policy #560; and Documentation of Resident PREA Education.

Facility Characteristics

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Bethany Christian Services' Residential Treatment facility is located at the Bethany Christian Services main campus, at 901 Eastern Ave NE in Grand Rapids, Michigan. The multi-level, 26-bed facility houses juvenile males who have had a history of sexual misconduct. The top floor has two large living, dining, and activity areas surrounded by bedrooms, offices, medical rooms, and bathrooms. Residents must check with staff before going to the bathrooms. Residents are mainly housed two or three to a room, with the rooms on both sides of hallways, or surrounding the living area, where the staff have a line-of-sight supervision from a monitoring area, which includes a video monitoring screen. The staff monitoring station is in the living area, which includes spaces for activities and school work. There are also kitchens, staff rooms, and meeting and therapy rooms on this level. The lower levels are known as “the basement” and “the first floor,” albeit that “the basement” seems like the ground floor, since the building is built on the side of a hill, and since the lower levels also have views to the outside. These lower levels have the main entrance, with administrative and therapist offices, conference rooms, the main kitchen area, visiting rooms, a computer lab, a game room, and the gym. The building is on a hill, surrounded by acreage, nestled in a naturally wooded area connected by a hiking trail.

The agency website states, “Since 1985, Bethany Christian Services' Residential Treatment Program in Grand Rapids, Michigan, offers comprehensive treatment in a home-like setting for adolescent males, ages 10-17 who are sex offenders or have demonstrated sexually aggressive or inappropriate behaviors; have a Full Scale Intelligence Quotient (FSIQ) of 70 or above; or qualify for treatment in a medium security program.”

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Auditor Note: No standard should be found to be “Not Applicable” or “NA”. A compliance determination must be made for each standard.

Number of Standards Not Met: 0

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. Bethany Christian Services’ Residential Treatment facility has developed, documented, and made its best efforts to comply on a regular basis with, a staffing plan that considers all relevant factors, and provides for adequate levels of staffing and video monitoring, to protect residents against abuse. The average daily number of residents is 23. The average daily number of residents on which the staffing plan was predicated is 26. Each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. According to the Pre-Audit Questionnaire, interviews, and other documentation received by the auditor, there were no deviations from the plan in the past year. The facility's plan strives to maintain staffing ratios of a minimum of 1:5 during resident waking hours and 1:15 during resident sleeping hours. At least once every year the agency or facility, in collaboration with the PREA Coordinator, reviews the staffing plan to see whether adjustments are needed to the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan, to ensure compliance with the staffing plan. The Staffing Plan and Review was reviewed by the audit team. The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These rounds are documented and cover all shifts, according to logs provided and interviews conducted.

Auditor Overall Compliance Determination

☐ Exceeds Standard *(Substantially exceeds requirement of standards)*

☒ Meets Standard *(Substantial compliance; complies in all material ways with the standard for the relevant review period)*

☐ Does Not Meet Standard *(Requires Corrective Action)*

Instructions for Overall Compliance Determination Narrative

*The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

Bethany Christian Services’ Residential Treatment facility does not conduct cross-gender searches of residents, absent exigent circumstances. In the past 12 months, no cross-gender searches have been performed. If they are done, they must be documented. Policy and procedures on these matters were reviewed by the auditor and discussed during interviews with staff and residents. Most residents indicate there are no searches at the facility other than room and property searches. They say they sometimes have to empty out their pockets for staff checking for contraband. Some residents say the facility can do other searches, such as pat-downs, but say these would never be done by female staff. The facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine room checks (this includes viewing via video camera). Policies and procedures require staff of the opposite gender to announce their presence when entering a resident housing unit or area where residents are likely to be showering, performing bodily functions, or changing clothing. The facility has a policy prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. None of these searches have occurred in the past 12 months. Documentation and interviews indicate that all staff have been trained regarding searches and understand the training. Training Curricula was provided to the auditor by the facility and reviewed by the auditor, and training logs were provided and reviewed.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

According to the Pre-Audit Questionnaire, a review of policy, and interviews conducted, Bethany Christian Services' Residential Treatment facility has established procedures to provide disabled residents, and residents with limited English proficiency, equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. As explained on their website and by Mr. Barnhouse, Bethany Christian Services' parent organization has international
operations that include interpreters from many languages and cultures, who might be called upon to assist if needed. In addition to BCS’s own resources, they list SpeakEasy Telephone Interpreting, Pacific Interpreters Connect, Voices for Health Language and Culture Solutions, Hispanic Center of Western Michigan, Associated Language Consultants, Liaison Linguistics, and Deaf and Hard of Hearing Services on their list of resources for LEP or disabled youth. For youth with severe emotional disabilities or learning disabilities, the facility benefits from the Special Education Services of the Grand Rapids Public Schools, who provide teachers, tutors, and professional assistance on site. Bethany Christian Services RTC policy prohibits use of resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under ß 115.364, or the investigation of the resident's allegations. The agency documents the limited circumstances in individual cases where resident interpreters, readers, or other types of resident assistants are used. In the past 12 months, there have not been any instances where resident interpreters, readers, or other types of resident assistants have been used.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy prohibits hiring or promoting anyone who may have contact with residents, and prohibits enlisting the services of any contractor who may have contact with residents, who has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or has been civilly or administratively adjudicated to have engaged in any of these activities. Bethany Christian Services policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. The Agency's policy requires that before it hires any new employees who may have contact with residents, it conducts criminal background record checks, consults any child abuse registry maintained by the State or locality in which the employee would work; and consistent with Federal, State, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. Policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. Much of the above is also covered on the Employee Acknowledgment Form, required prior to employment, which is not limited to convictions, but also requires disclosure of...
any investigations, arrests, and administrative adjudications. Michigan Division of Child Welfare Licensing requires and monitors that criminal background checks and central registry abuse and neglect registry checks are done annually for all juvenile justice residential facilities. In addition, MDHHS overarching policy that must be followed by public and contracted facilities requires this. MDHHS Juvenile Justice Residential Policy #100 (excerpt), “Pre-employment Screening: All applicants must complete pre-employment screening that includes:
☐ Submission of fingerprints; see AHP 629-9, Criminal History File Search by Fingerprints.
☐ Criminal history checks using the Law Enforcement Information Network (LEIN) or Internet Criminal History Access Tool (ICHAT).
☐ Testing for use of illegal substances.
☐ Checks of the central registry.
☐ The prospective employee must submit a written DHS-194, Request for Central Registry Clearance, which is available online.
☐ The facility director or designee must contact the local county office to verify that a prospective employee is not listed as a perpetrator on the central registry.
☐ The county office must provide a completed DHS-1910 which documents that there is no central registry record of the individual or that a record exists and lists the county that entered the record.
☐ Checks of the Michigan Public Sex Offender Registry and the Dru Sjodin National Sex Offender Public Website.”
“Annual Checks: The facility director or designee must ensure the following annual checks are conducted and documented for all staff:
☐ Central registry checks.
☐ Criminal history checks using LEIN or ICHAT including checks for for all interns and contractors.
☐ Checks of staff for current driver’s licenses and the appropriate endorsements for duties performed.
☐ Checks of the Michigan Public Sex Offender Registry and the Dru Sjodin National Sex Offender Public Website.” Agency policies and facility practices significantly exceed the minimum PREA Standards in these areas.

Bethany Christian Services Residential Treatment Facility is responsible for conducting only administrative sexual abuse investigations (including resident-on-resident sexual abuse or staff sexual misconduct). The Grand Rapids Police and Michigan Children's Protective Services coordinate on the criminal investigations. The police follow uniform evidence protocol. The facility follows uniform evidence protocol as well. The investigation protocol is developmentally appropriate for youth and was adapted from or otherwise based on the most recent edition of the DOJ's Office on Violence Against Women publication, A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents. The facility offers all residents who experience sexual abuse access to forensic medical examinations off site, at no financial cost to the victim. Where possible, examinations are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). When SANEs or SAFEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SANEs or SAFEs. During the past 12 months there have been no forensic medical exams conducted. The facility attempts to make a victim advocate from a rape crisis center available to the victim, in person or by other means, and documents these efforts. If and when a rape crisis center is not available to provide victim advocate services, the facility provides a qualified staff member from a community-based organization or a qualified agency staff member.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bethany Christian Services Residential Treatment Program has routines in place that requires screening, within 48 hours of admission, for risk of sexual abuse victimization or sexual abusiveness toward other residents, using an objective screening instrument. This exceeds the PREA Standard requiring this to be done within 72 hours. Also exceeding this standard, they reassess all residents risk level monthly throughout their confinement. The audit team viewed examples of the screening instrument and spoke with staff involved in the intake/admissions process. Interviews conducted during the onsite audit, including interviews with residents, indicate this screening and reassessment is being done. The screening and reassessment attempts to ascertain information about: (1) Prior sexual victimization or abusiveness; (2) Any gender nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse; (3) Current charges and offense history; (4) Age; (5) Level of emotional and cognitive development; (6) Physical size and stature; (7) Mental illness or mental disabilities; (8) Intellectual or developmental disabilities; (9) Physical disabilities; (10) The resident’s own perception of vulnerability; and (11) Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents. In addition, exceeding this standard, the screening inquires regarding how these risk factors inter-relate within the family social history and functioning, and supports the information collected with context and narrative detail. Screenings are performed and reviewed by mental health professionals.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bethany Christian Services Residential Treatment uses information from the risk screening required by §115.341 to inform housing, bed, work, education, and program assignments. This information is gleaned through conversations with the resident and during medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's file. This is a non-secure facility, according to the Pre-Audit Questionnaire, and no residents are placed in isolation, so they cannot be isolated based on information obtained during this process. Placing lesbian, gay, bisexual, transgender, or intersex residents in particular housing, bed, or other assignments solely on the basis of such identification or status is prohibited. The facility also prohibits considering lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. The agency makes housing and program assignments for transgender or intersex residents in the facility on a case-by-case basis. Policy and interviews indicate appropriate controls have been implemented on the dissemination of sensitive information obtained during the screening, reassessment, and therapeutic process, in order to ensure that the information is not exploited to the resident's detriment by staff or other residents.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Bethany Christian Services Residential Treatment has established procedures allowing for multiple internal ways for residents to report privately to agency officials about sexual abuse and sexual harassment; retaliation by other residents or staff for reporting sexual abuse and sexual harassment; and staff neglect or violation of responsibilities that may have contributed to such incidents. Residents can report verbally, through the grievance process, or through the outside reporting option of calling the Child Protective Services toll free report line. Mr. Sussex assures the auditor that DHS leadership have verified that the staff who answer the Protectives Services hotline have been trained in receiving these reports according to PREA standards, including reports of harassment not normally investigated by the agency. If the allegations do not rise to the level of abuse that would be handled by Child Protective Services, an administrative report will still be generated and handled in accordance with PREA standards, even including anonymous reports. Child Protective Services is not part of Juvenile Justice Programs and meets the requirement that it be a "public or private entity or office that is not part of the agency." The facility does not house any residents detained solely for civil immigration purposes. The agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to document verbal reports by the end of their shift. Residents are provided with access to tools to make written reports of sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Bethany Christian Services has established procedures for staff to privately report sexual abuse and sexual harassment of residents. Staff, and anyone else, can also report anonymously through the Child Protective Services number. Staff are informed of these procedures through trainings, verified policy reviews, and posted notices.

This discussion must also include corrective action recommendations where the facility does not meet the standard. Bethany Christian Services Residential Treatment has an administrative procedure for dealing with resident grievances regarding sexual abuse which allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. The agency policy does not require a resident to use an informal grievance process, or otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. Policy and procedure allow a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The policy requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint, and it requires that an initial decision on the merits of any grievance or portion of a grievance alleging sexual abuse be made immediately, as it is considered an emergency, as with any allegation of sexual abuse or harassment. The final decision must be made within 90 days. In the past 12 months there have been no grievances that were filed that alleged sexual abuse. The agency always notifies the resident in writing when the agency files for an extension, including notice of the date by which a decision will be made. Policy and procedure permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. Agency policy and procedure require that if the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident's decision to decline. The agency has a written policy that limits its ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith.

Bethany Christian Services Residential Treatment provides a method to receive third-party reports of resident sexual abuse or sexual harassment. Third-party reports can be made through the youth and family grievance system, through the Child Protective Services toll-free reporting line, or by verbal or written reporting to the facility. All staff and residents interviewed knew that reports can be received through other people, even through people outside the facility; that reports can be made anonymously; and that reports can be made through outside organizations. The agency and facility publicly distributes information on how to report resident sexual abuse or sexual harassment on behalf of residents. Information is provided to the resident and family. Posters list the CPS toll-free number and other reporting options, the information is included in youth and staff training, and the information is listed on the DHS Website at [http://michigan.gov/documents/dhs/PREA_Website_Info_Final_445753_7.pdf?20140211132725](http://michigan.gov/documents/dhs/PREA_Website_Info_Final_445753_7.pdf?20140211132725)

Auditor Overall Compliance Determination
Bethany Christian Services' Residential Treatment facility requires all staff to report immediately and according to agency policy: any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred in a facility, whether or not it is part of the agency; any retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or retaliation. The agency requires all staff to comply with any applicable mandatory child abuse reporting laws. Apart from reporting to designated supervisors or officials and designated State or local service agencies, Bethany Christian Services policy prohibits staff from revealing any information related to a sexual abuse report to anyone other than to the extent necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are mandated reporters and are required to inform residents at the initiation of services of their duty to report and the limitations of confidentiality. Upon receiving any allegation of sexual abuse, the facility will promptly report the allegation to the appropriate agency office and to the alleged victim’s parents or legal guardians, unless the facility has official documentation showing the parents or legal guardians should not be notified. If the alleged victim is under the guardianship of the child welfare system, the report will be made to the alleged victim’s caseworker instead of to the parents or legal guardians. If a juvenile court retains jurisdiction over the alleged victim, the facility head or designee will also report the allegation to the juvenile’s attorney or other legal representative of record within 14 days of receiving the allegation. Interviews with Clinical Services Director and Youth Specialists, as well as a review of policy and some case documentation, indicate these policies are being followed.

Staff interviewed indicate that depending on the specifics of the information received about the substantial risk of harm, they would follow as many of the First Responder Protocols as might apply to the situation. However, staff and residents interviewed indicate they do not know of any times during the past year when a resident was at imminent risk of sexual abuse.

PREA Compliance Manager Mark Barnhouse states Bethany Christian Services is a non-secure facility with no protective custody options. The police would be called if a child requires this level of control. However, there is a protocol in policy for "protective isolation" that can be used as a last resort, when approved, until alternative care for the child can be arranged, as long as it does not deny education, exercise, medical care, or counseling. Daily review and mental health services are required if this protocol is employed. Interviews indicate that such a protocol is very unlikely to be used, and if used, would probably be for less than an hour.

Bethany Christian Services has a policy related to criminal and administrative agency investigations. The agency does not terminate an investigation solely because the source of the allegation recants the allegation. The substantiated allegations of conduct that appear to be criminal are referred for prosecution, but this is done by the Grand Rapids Police Department, since they are in charge of criminal investigations. The agency retains all written reports pertaining to the administrative or criminal investigation of alleged sexual abuse or sexual harassment for as long as the alleged abuser is a resident or is employed by the agency, plus five years. Clinical Supervisor Mark Barnhouse conducts the facility's administrative investigations. Interviews indicate he does these investigations promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. These administrative investigations include an
effort to determine whether staff actions or failures to act contributed to the abuse, and the investigations are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. When the quality of evidence appears to support criminal prosecution, the agency will conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution. Mr. Barnhouse states that the credibility of an alleged victim, suspect, or witness is assessed on an individual basis and not determined by the person’s status as resident or staff. The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation. No resident who alleges sexual abuse will have to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation. When outside agencies investigate sexual abuse, the facility cooperates and endeavors to remain informed about the progress of the investigation.

☐ Does Not Meet Standard (Requires Corrective Action)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Policy requires that any resident who makes an allegation that he or she suffered sexual abuse in the facility is informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation. In the past 12 months there has been no administrative investigations of alleged resident sexual abuse or harassment. If an outside entity conducts an investigation, the agency requests the relevant information from the investigative entity in order to inform the resident of the outcome of the investigation. Following a resident's allegation that a staff member has committed sexual abuse against the resident, the facility subsequently informs the resident (unless the facility has determined that the allegation is unfounded) whenever: the staff member is no longer posted within the resident's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. There have not been any allegations of sexual abuse committed by a staff member against a resident in the past 12 months. Following a resident's allegation that he has been sexually abused by another resident in an agency facility, the agency subsequently informs the alleged victim whenever the agency learns that the alleged abuser has been indicted or convicted on a charge related to sexual abuse within the facility. The agency has a policy that all notifications to residents described under this standard are documented.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Interviews and documentation received by the auditor indicate that staff are subject to disciplinary sanctions up to and including termination for violating Bethany Christian Services' sexual abuse or sexual harassment
policies. In the past 12 months there have been no staff alleged to have violated agency sexual abuse or sexual harassment policies. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies.

Interviews with supervisors and with the PREA Compliance Manager indicate that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Bethany Christian Services policy requires that any contractor or volunteer who engages in sexual abuse be prohibited from contact with residents. In the past 12 months, there have been no allegations or reports. The facility takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse, or a criminal finding of guilt. In the past 12 months there have been no substantiated allegations or criminal findings of guilt and therefore no disciplinary sanctions for sexual abuse. Although the agency policy is consistent with this PREA
standard regarding the isolation of residents, the facility does not practice isolation. The facility offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse and considers whether to require the offending resident to participate in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives. Access to general programming or education is not conditional on participation in such interventions. The agency disciplines residents for sexual contact with staff only upon finding that the staff member did not consent to such contact. Disciplinary action for making a report of sexual abuse, if the report is made in good faith based upon a reasonable belief that the alleged conduct occurred, is prohibited, even if an investigation does not establish evidence sufficient to substantiate the allegation. Interviews with facility administrators verify that although all sexual activity between residents is prohibited, such activity does not constitute sexual abuse unless it is determined that the activity is coerced.

Interviews and reviews of policy indicate that resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgment. Medical and mental health staff maintain secondary materials documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning contraception and sexually transmitted infection prophylaxis. Treatment services are provided to every victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.

Bethany Christian Services’ Residential Treatment facility offers medical and mental health evaluation and, as appropriate, treatment to all residents who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. Since this is an all-male facility, standards for female residents do not apply. Resident victims of sexual abuse are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. Interviews indicate that the evaluation and treatment of victims shall include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. The facility attempts to conduct a mental health evaluation of all known resident-on-resident abusers within 60 days of learning of such abuse history, and it offers treatment when deemed appropriate by mental health practitioners. Some interviews indicate that due to the number, credentials, and experience of the mental health professionals at the facility, the services provided at this facility may actually be above community standards of care and professional standards.

The facility conducts a sexual abuse incident review at the conclusion of every sexual abuse criminal or administrative investigation, unless the allegation has been determined to be unfounded. In the past 12 months, there have been no investigations requiring an incident review. The facility ordinarily conducts a sexual abuse incident review within 30 days of the conclusion of the criminal or administrative sexual abuse investigation. The sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors, investigators, and medical or mental health practitioners. The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; and whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility. The team examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; and the team also assesses the adequacy of staffing levels in that area during different shifts. They assess whether monitoring technology should be deployed or augmented to supplement supervision by staff. They report their findings, and any recommendations they have for improvement, to the facility head and PREA Compliance Manager.
