### Audit Findings

#### Audit Narrative
The auditor’s description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

**Overview**

The on-site Prison Rape Elimination Act (PREA) compliance audit of Bethany Christian Services Residential Treatment Ridgeview (BCSRTR) for juvenile residents, located in Grand Rapids, Michigan was conducted on November 4-5, 2020 by U.S. Department of Justice (DOJ) certified PREA Auditor, James L. Roland Jr., Nakamoto Group, Inc. The standards used for this audit became effective August 20, 2012. The Auditor conducted an opening meeting, toured the entire facility, interviewed a random sample of staff and residents, and reviewed PREA related staff and resident documentation. Upon completion of the audit process, a closing meeting was held with the administrative staff to discuss the audit process, preliminary findings, and the post-audit process. Employees at the facility were found to be extremely courteous, cooperative, and professional. All areas of the facility were clean and well maintained. During the completion meeting, the Auditor thanked the staff for their hard work and dedication to the PREA process.

**Pre-Audit Phase**

On June 30, 2020, PREA Audit Notices in English and Spanish were provided to the facility to be posted. The Auditor observed the notices posted in the living units, at the main entrance, and in the visitation area. Due to the COVID-19, the notices were posted greater than eight weeks pre-audit. The Auditor did not receive any correspondence from residents prior to the on-site visit.

BCSRTR staff were asked to complete the Pre-Audit Questionnaire (PAQ) provided to the facility on October 15, 2020. The completed PAQ and supporting documentation was received by the Auditor on October 8, 2020. All documentation was reviewed by the Auditor including educational materials, training logs, posters, brochures, agency policies and procedures, forms, organizational charts, and other PREA related documentation.

On October 28, 2020, the Auditor requested additional information including, but not limited to, staff rosters, resident rosters, investigations for review, residents self-identified as Lesbian, Gay, Bisexual, Transgender, Intersex (LGBTI), resident reports of sexual abuse/harassment, residents who are Limited English Proficient (LEP), and additional examples of the BCSRTR screening instrument. These documents were provided and reviewed during the on-site audit.

**On-Site Audit Phase**

The Auditor held an opening meeting on the morning of November 4, 2020 at the BCSRTR facility with administrative staff. The audit schedule and process were discussed during the meeting. Including the Auditor, those present at the meeting were:
- Director’s Designee (DD)
- PREA Juvenile Compliance Analyst x2 (PJCA)

The Auditor was provided a private conference room in which to work and conduct confidential interviews. All requested files and rosters, both staff and residents were made available to the Auditor for review.

Site Review

Immediately following the opening meeting, a tour of the facilities was completed. The Auditor was escorted by the DD, and both PJCA. During the tour, the Auditor reviewed PREA related documentation and materials located on bulletin boards, and other locations. The Auditor assessed camera surveillance, physical supervision, and electronic monitoring capabilities. Other areas of focus during the facility tour included, but were not limited to, levels of staff supervision, and limits to cross-gender viewing. All signs and postings were in both English and Spanish. Residents can shower, dress, and use the toilet facilities without exposing themselves to staff of the opposite gender. Informal and formal conversations with employees and residents regarding the PREA standards were conducted. Postings regarding PREA violation reporting and the agency’s zero-tolerance policy for sexual abuse and sexual harassment were prominently displayed in all living units, meeting areas, and throughout the facility. Audit notice postings with the PREA Auditor’s contact information were posted in the same areas. The audit notices were posted eight weeks prior to the on-site visit. The Auditor was given unimpeded access to all areas of the facility.

Resident Interviews

At the time of the audit, there were 23 male residents housed at BCSRTR and a total of 15 residents were interviewed. The facility indicated that they had no residents who were identified with Limited English Proficiency (LEP) or who self-identified as a part of the LGBTI community, who reported sexual victimization during risk screening, and no residents with cognitive or physical disabilities. No residents refused to be interviewed. Interviews were conducted using the Department of Justice (DOJ) protocols to determine residents’ knowledge of PREA and the reporting mechanisms available to them.

Staff Interviews

BCSRTR employs 39 staff and 30 staff members were interviewed, including 14 random staff, (from all three shifts), and 16 administrative/specialized staff. The administrative staff included the Director’s Designee, PCM, and PCC. Specialized Staff included the Unit Supervisor (US), Registered Nurse (RN), Residential Therapist (RT) x2, Lead Therapist (LT), Senior Director of Human Resources (SDHR), Sexual Assault Nurse Examiner (SANE), a Contractor, and an Investigator. Due to the small size of the facility, administrative staff were interviewed for multiple positions for the specialized interviews. All staff members have been trained to act as first responders when a PREA related incident occurs.
It was confirmed that the contractor will provide services to BCSRTR including, but not limited to, a 24 hour per day, seven days per week Sexual Assault Hotline, medical accompaniment and advocacy for a resident victim of sexual assault.

**File Review**

Following the interviews, the Auditor reviewed the files requested during the pre-audit phase. The Auditor reviewed five personnel files to establish compliance with PREA training mandates and background checks. Screening and intake procedures were evaluated by reviewing five random resident files which included a vulnerability assessment instrument and resident education verification documentation.

**Investigations**

During the current auditing period, there were four reported allegations of sexual harassment and/or sexual abuse. All allegations were resident on resident incidents. Of those allegations one was substantiated, 2 were unsubstantiated, and 1 was unfounded. All allegations are investigated by the Facility Investigator (FI). In addition, all allegations are immediately reported to the Grand Rapids Police Department (GRPD), Child Protective Services (CPS), Michigan Department of Health and Human Services (MDHHS), and the FI. The Investigator is responsible for receiving all verbal and telephonic referrals. Additionally, sexual abuse investigation outcomes and general protective services assessment outcomes are submitted to, reviewed by, and finalized by the Director.

**Closeout**

A closing meeting was held with the Auditor and the Director's Designee, and both PREA Clinical Analysts on the morning of November 5, 2020. Discussions centered around the audit process, preliminary findings, and the post-audit process. The Auditor thanked the staff for their hard work and dedication to the PREA process.

**Facility Characteristics**

The auditor’s description of the audited facility should include details about the facility type, demographics and size of the resident, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.
The Program

Bethany Christian Services Ridgeview Residential program offers a 24-hour treatment setting for male juveniles 12-17 years old who have sexually offended or have done sexually reactive behavior. The treatment program is an open, unsecure program located on a 3-acre campus. Two separate units serve 12 residents each. The Ridgeview program is licensed by the state of Michigan and is fully accredited by the Council on Accreditation of Services for Families and Children.

Overarching Philosophy

The treatment program is grounded in multiple theoretical foundations; all with an emphasis on the inherent worth of residents and that change happens within relationships. The overarching umbrella is the Sanctuary Model, which emphasizes safety and collaboration. Trauma and Dialectal Behavior Therapy (DBT) informed practices are used in all areas of the program. The Circle of Courage, Good Lives, and Risk-Need-Responsivity models of treatment all emphasize the inherent worth of residents, strength-based perspective, and help to address the unique individual needs of each resident.

Clinical Program

Psychological and Psychiatric Services. A fully licensed psychologist conducts a comprehensive psychological evaluation for each resident at the onset of his placement. This information is used by the Treatment Team to develop effective, individualized treatment plans that target the unique needs of each resident. A fully licensed child psychiatrist provides on-site psychiatric assessment and medication review.

Individual, Group, and Family Therapy is provided by licensed master-level clinicians. They implement a treatment plan that addresses the dynamics of the sexual offending behavior, the
unique needs that impacted the offending behavior, and the family dynamics to develop or maintain healthy family relationships. Written clinical work, journaling, and family homework is given to youth and families.

Activity Therapy is provided by a licensed master-level Recreation Therapist. This part of the program consists of a variety of action-oriented and experiential interventions, including group initiatives, team challenge low-ropes course, leisure education and skills, and expressive arts. Teamwork, problem-solving, trust, communication, and self-esteem are emphasized.

Daily Program

Youth Specialist staff are essential to the Therapeutic Milieu as they offer direct supervision and interactions with residents daily, including facilitating therapeutic milieu, level system, life skills groups, and group activities. These opportunities promote the core treatment concepts of relationships building, responsibility, empathy, and healthy social and coping skills. Each resident has a Staff Advocate to assist in building relationships.

Education. All residents are enrolled in Grand Rapids Public School and use an online e2020 system with state-certified public-school teachers. Tutors are available several days a week to help residents make academic progress.

Health. All residents received regular medical, dental, and optical examinations as required. An agency nurse is available to assess situations and make referrals for medical and dental appointments as needed.

Summary of Audit Findings

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

Overview

During the auditing period, BCSRTR reported four incidents of sexual abuse/harassment in the Pre-Audit Questionnaire (PAQ). There is a well-established zero-tolerance culture throughout with documentation addressing all areas of PREA. The agency, Bethany Christian Services, maintains a detailed set of policies that cover zero-tolerance throughout the facility. A random review of five personnel files for background checks and employee training files established compliance with PREA training mandates and revealed that hiring and promotion practices are consistent with sexual abuse safety measures.

The Auditor found the facility administration maintains a strong commitment to PREA and the zero-tolerance policy. Significant time and resources have been employed to ensure a safe
environment for the residents. The staff at the BCSRTR proved to be organized, efficient, and dedicated to the PREA process.

**Staff Interviews**

Interviews with 30 staff revealed they received and had a good understanding of PREA policies. Interviews were conducted with 16 specialized staff. These staff consisted of the Director’s Designee (DD), PREA Compliance Manager (PCM), Unit Supervisor, Registered Nurse (RN), Residential Therapist (RT) x2, Lead Therapist (LT), Senior Director of Human Resources (SDHR), Contractor, and FI. Some staff have multiple responsibilities and were interviewed multiple times. 14 random staff were interviewed which consisted of direct care staff from all shifts. They were knowledgeable about their roles in prevention, reporting, and their responsibilities in the event of a PREA related incident, particularly first responder duties. They were able to verbalize the steps they would take if they were the first responder to a PREA related incident. Reporting mechanisms were displayed in a conspicuous manner and residents and staff members were aware of all reporting methods available to them. A review of the BCSRTR staff training curriculum was completed by the Auditor and records support the finding that all staff have received comprehensive PREA training. Staff appeared truly interested and vested with the residents and expressed a true desire to see them succeed.

**Resident Interviews**

15 residents were interviewed. Interviews with residents revealed a good understanding of the PREA safeguards and the zero-tolerance policy. Comprehensive PREA education is provided in written form (i.e. Youth Handbook, entrance packet), personal instruction, and posters. The facility indicated that they have no residents in the LGBTI group, no residents who were physically disabled, no residents who reported a sexual abuse (that were still at the facility), and no residents who disclosed prior sexual victimization during risk screening. Five vulnerability assessment instruments were reviewed by the Auditor which indicated that intake and classification assessments are efficient and seamless in addressing referrals based on victimization or abusiveness screening data. Residents acknowledged the admissions screening process included questions regarding any history of sexual abuse or victimization and whether they would like to identify a sexual preference. Residents expressed during interviews that they were aware of how to report abuse internally and externally. Residents verbalized trust in the BCSRTR staff and a willingness to report abuse to them. The residents demonstrated understanding that the facility has appropriate medical and victim advocacy networks in place. Residents affirmed they felt safe in the facility. Staff and resident interactions were observed by the Auditor and appeared respectful and positive.

1. BCSRTTR Pre-Audit Questionnaire
2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. PREA Staff training
4. Interviews with the following:
   a. Specialized and Random Staff

Agency policy requires each facility to review the staffing plans on an annual basis. Interviews with the DD revealed compliance with the PREA and that other safety and security issues are always a primary focus when considering and reviewing respective staffing plans. The DD meets weekly with his administrative staff including the PCM to address staffing issues as it relates to the PREA. The facility has been provided with all necessary resources to support the programs and procedures to ensure compliance with PREA standards. The audit included an examination of all video monitoring systems, resident access to grievance forms, staff interviews, and rosters. Supervisory and administrative staff routinely make unannounced rounds covering all shifts and these rounds are documented. Interviews with staff confirmed unannounced rounds occur in all areas of the facility and are conducted on a weekly basis, with no warning to employees. The BCSRTR uses a number of video cameras to monitor its' facility. These cameras were pointed out during the tour. The facility does utilize convex mirrors to supplement security in areas where there are numerous corners or potential blind spots.

4. Interviews with the following:

Policies and documentation address this standard. Cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Staff interviews indicated they received cross-gender pat search training during initial and annual training. The Auditor observed that each unit has individual shower stalls allowing only one resident at a time to shower. Scheduling of showers is monitored by staff. The facility has implemented a policy that all staff working the unit will announce themselves prior to entering the unit to allow residents the opportunity to prepare themselves from a privacy perspective. The residents interviewed acknowledged they can shower, dress, and use the toilet privately, without being viewed by staff of the opposite gender. Staff, along with a majority of the residents interviewed, indicated that employees of the opposite gender announce their presence before entering a housing unit. Staff members
were aware of the policy prohibiting the search of a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. During the past 12 months, there were no exigent circumstances that required cross-gender viewing of an resident by a staff member at BCSRTR.

Staff members interviewed were aware of the policy that, under no circumstances, are resident interpreters or assistants to be used when dealing with PREA issues. Translation services are provided with the use of a Translators Resource List and are available to residents who do not have a basic command of the English language. There were no residents identified as LEP at the facility at the time of the audit. The review of documentation, staff, and resident interviews support a finding that the facility is in compliance with this standard.

1. BCSRTR Pre-Audit Questionnaire
2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. Interviews with the following:
   a. Specialized and Random Staff
   b. Residents

Policies, training curriculum, signed acknowledgements, and Orientation Checklist/Signature Sheets address the mandates of this standard. The facility puts forth its best efforts to educate the residents regarding the PREA. Residents receive information during the intake process including a Resident Handbook, printed in English and Spanish. A staff member conducts an education program regarding the PREA for all residents within 30 days of their arrival at the facility. The program includes definitions of sexually abusive behavior and sexual harassment, prevention strategies, and reporting modalities. Residents also view a comprehensive orientation video that explains the facility’s zero-tolerance policy and covers the resident’s right to be free from sexual abuse, sexual harassment, and retaliation. There are PREA posters displayed throughout the facility and in each housing unit. These posters offer a Hotline telephone number, which may be called to report sexual abuse or sexual harassment. Since the Hotline telephone number is an toll-free number, residents are advised that they can contact any staff member to place the call. PREA information is posted in the Resident Handbook and posted in each housing unit for resident correspondence concerning any sexual abuse or sexual harassment allegation. There is also a translation language line available to LEP residents. The Auditor was provided a random sampling of PREA Checklists/Signature Sheets to verify that residents, admitted during the auditing period, received education and relevant written materials. All residents are required to acknowledge, in writing, completion of
PREA education. During the interview process, randomly selected residents indicated they received information about the facility’s rules against sexual abuse/sexual harassment, when they arrived at the facility. They further indicated they were advised about their right not to be sexually abused/sexually harassed, how to report sexual abuse/sexual harassment, and their right not be punished for reporting sexual abuse/sexual harassment. Residents were aware of available services outside of the facility for dealing with sexual abuse.

Policies and the Annual Training Lesson Plan address the mandates of this standard. Other training includes online specialized training for psychologists and victim advocacy training. The agency ensures all full and part-time medical and mental health practitioners, who work regularly in its facilities, have been trained according to the practitioner's status in the organization. All mental health and medical staff have received the required specialized training on victim identification, interviewing, reporting and, clinical interventions. Employees receive training annually and support documentation is on file. Medical and mental health care staff acknowledged, in writing, that they both received and understood the training, as it relates to the PREA. Interviews with medical and mental health staff confirmed awareness of their responsibilities regarding the PREA. All cases requiring the processing of sexual assault evidence collection kits are transported to the YWCA where a SANE is available at all times (a representative from the YWCA was interviewed and confirmed access to these services). Policy addresses the requirements of this standard. Agency and facility policy require the use of a screening instrument to determine proper housing, bed assignment, work assignment, education, and other program assignments, with the goal of keeping residents at a high risk of being sexually abused/sexually harassed separate from those residents who are at a high risk
of being sexually abusive. Facility policy also requires all residents be screened within 72 hours of arrival; however, they are routinely screened on the day of arrival. Risk management staff review all relevant pre-sentence documentation and information from other confinement facilities and reassess a resident’s risk level, as necessary, within 30 days of his arrival. Agency policy prohibits residents from being disciplined for refusing to answer, or for not disclosing complete information in response to questions regarding their mental/physical health, developmental disability, sexual preferences, sexual victimization history, and perception of vulnerability. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. Interviews with risk management staff and a random review of risk screening assessments support the finding that the facility is in compliance with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. PREA Screening Tool
4. PREA Screening Tool examples x 5
5. Staff Training Agenda 2020 Annual Refresher Training
6. Interviews with the following:
   a. Specialized and Random Staff

Policy, documentation, and interviews support compliance with this standard. Agency and facility policy require the use of a screening instrument to determine proper housing, bed assignment, work assignment, education and other program assignments, with the goal of keeping inmates at a high risk of being sexually abused/sexually harassed separate from those inmates who are at a high risk of being sexually abusive. Housing and program assignments are made on a case-by-case basis and residents are not placed in housing units based solely on their sexual identification or status. From the information provided by the facility, there were zero residents who self-identified as being bi-sexual, gay, transsexual, or intersex. Additionally, zero residents indicated sexual victimization or abusiveness during risk screening. No residents were interviewed in support of this standard.

During the audit, risk management staff indicated transgender and intersex residents are reassessed monthly and their own views with respect to their own safety are given serious consideration. Additionally, they are given the opportunity to shower separately from other residents. Staff and resident interviews, the review of supporting documentation and the Auditor's observations support the facility being in compliance with the standard. Seclusion is only used in an emergency when the resident, due to current behavior, poses an imminent risk of harm to himself and/or others. Seclusion will not be used as a means of punishment, discipline, coercion, convenience, retaliation, nor used as a supplement for a lack of staff presence or competency. The DD shall ensure that it is implemented only as authorized and in accordance with the provisions set forth in their policy. The DD is responsible for ensuring that abusive and arbitrary use of seclusion does not occur in the program. The PCC ensures that program staff are sufficiently trained in when and how to use seclusion and how to document its use. Per an interview with the DD residents cannot be kept in seclusion longer than 60 minutes. During that time the resident is monitored every ten minutes. Residents may be released from seclusion anytime before the 60 minutes if they demonstrate control of their emotional state.

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. 2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. Signage: Sexual Abuse Hotline Number
4. PREA Screening tool
5. Resident Handbook
6. Interviews with the following:
   a. Specialized and Random Staff
   d. Residents

Policies, the PREA Notices, and Resident Handbook address the requirements of the standard. The review of supporting documentation and staff/resident interviews indicated that there are multiple ways (verbally, in writing, anonymously, privately and from a third party) for residents to report sexual abuse/sexual harassment. The facility has procedures in place for staff to document all allegations. There are posters and other documents on display throughout the facility which also explain reporting methods. Staff members promptly accept and document all verbal, written, anonymous, private, and third-party reports of alleged abuse. Family and friends of residents may report sexual abuse/sexual harassment by contacting facility staff, calling the PREA Hotline, or other third party personnel. All interviewed residents confirmed awareness of the multiple methods of reporting sexual abuse/assault allegations. Interviews with staff and residents, observations of posters addressing reporting methods, and an examination of policy/documentation confirm the BCSRTR’s compliance with this standard.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. 2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. Resident Handbook
4. Grievance form
5. Interviews with the following:
   a. Specialized and Random Staff
   b. Residents

Policies, and interviews address the requirements of this standard. The policy requires that all PREA grievances be processed in accordance with 115.52a-f. Residents may file a grievance, however, all allegations of sexual abuse/sexual harassment, when received by staff, will immediately be referred for investigation. Residents are not required to use an informal grievance process and procedures also allow an resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. Additionally, policy prohibits the investigation of the allegation by either staff alleged to be involved in the incident or any staff who may be under their supervision. Policy states that there is no time frame for filing a grievance relating to sexual abuse or sexual harassment. Allegations of physical abuse by staff shall be referred to the GRPD, CPS, MDHHS, and the FI in accordance with procedures established for such referrals. Policy addresses the filing of emergency administrative remedy requests. If a resident files the emergency grievance with the institution and believes he is under a substantial risk of imminent sexual abuse, an
expedited response is required to be provided within 48 hours. There is no prohibition that limits third parties, including fellow residents, staff members, family members, attorneys, and outside victim advocates in assisting residents in filing requests for grievances relating to allegations of sexual abuse or filing such requests on behalf of residents. There were no grievances filed involving PREA related issues during the past 12 months. There were no grievances alleging sexual abuse that involved an extension due to the final decision not being reached within 90 days. Additionally, there were no grievances alleging sexual abuse filed by residents in which the resident declined third-party assistance. Residents are held accountable for manipulative behavior and false allegations. Generally, disciplinary action would be taken if a grievance was filed in bad faith.

2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. PREA Screening Tool
4. Interviews with the following:
   a. Specialized and Random Staff
c. Residents

Policies and interviews address the requirements of this standard. Staff, contractors and volunteers must report and respond to allegations of sexually abusive behavior, regardless of the source of the report. Staff members interviewed were aware of their duty to immediately report all allegations of sexual abuse, sexual harassment and retaliation relevant to the PREA standards. The reporting is ordinarily made to a shift supervisor, but could be made privately or to a third party. Policy requires the information concerning the identity of the alleged resident victim and the specific facts of the case be shared with staff on a need-to-know basis, due to their involvement with the victim’s welfare and/or the investigation of the incident. A review of policy and interviews with staff support the finding that the facility is in compliance with this standard. If a resident was at risk of sexual victimization, staff could temporarily place him in another unit. There have been residents placed in another unit due to a risk of sexual victimization during the past twelve months. This was verified through interviews with random staff. Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Evidence Reviewed (on-site visit, documentation, staff and inmate interviews):

1. BCSRTR Pre-Audit Questionnaire
2. Ridgeview Residential Prevention of Residential Sexual Assault (PORSA) Policy
3. PREA Screening Tool
4. Interviews with the following:
   a. Specialized and Random Staff
   b. Residents

Policy and interviews address the requirements of this standard. Interviews with health services and psychology services staff confirm the institution has a very thorough system for collecting medical and mental health information which allows the staff to provide continued re-assessment and follow up services to the residents. In the past 12 months, 100% of residents who disclosed prior victimization during screening were offered a follow up meeting with a medical or mental health practitioner. Additionally, 100% of the residents who have previously perpetrated sexual abuse, as indicated during the screening, were offered a follow up meeting with a mental health practitioner. Treatment services are offered without financial cost to the resident, as confirmed by observation and a review of intake screening documents.

Screening for prior sexual victimization in any setting is conducted by unit team staff during in-processing procedures. In-processing procedures also include screening for previous sexually abusive behavior in an institutional setting or in the community. When indicated, staff members ensure that the resident is offered a follow up meeting with a mental health practitioner within 14 days of the intake screening. Information related to sexual victimization or abusiveness is limited to medical and mental health practitioners and other staff with a need-to-know for the purpose of determining treatment plans, security, housing, work, program assignments and other management decisions. Signed and dated informed consents are obtained from residents before reporting prior sexual victimization which did not occur in an institutional setting. All information is handled confidentially. Interviews with the intake screening staff support a finding that the facility is in compliance with this standard.

The Auditor reviewed applicable standards and, through the review of supporting documentation, interviews with staff, residents, and the observation of physical evidence, concluded that this facility fully meets and substantially complies in all material ways with the PREA standards for the relevant review period. BCSRTR policies are directly tied to the PREA standards and staff expectations. The facility’s leadership is fully committed to eliminating sexual abuse/sexual harassment, as evidenced in the realistic staffing analysis and the recommendations for enhanced supervision techniques.

PREA training for staff and residents is documented and all stakeholders receive the appropriate level of training and are knowledgeable of the intent of the PREA and the tools available to ensure prevention, detection, reporting, and response to sexual abuse incidents. Referrals for mental health counseling are integrated in the intake and allegations of sexual abuse processes. Medical networks for the residents are established in the community. The public has access to reporting mechanisms and agency PREA trends data via the agency website. The BCSRTR currently complies with all applicable PREA standards and no corrective actions are required.
